## EXPERIÊNCIA

### Fullstack Web Programmer UI | UX – Full-time – Hybrid

- Fullstack web application development using React + TypeScript on the front-end and Node.js/Java on the back-end on demand.
- Project structuring following clean code best practices, documentation, separation of responsibilities, design patterns and AI integration.
- Implementation of robust CRUDs, authentication, authorization, REST API integrations and persistence in relational (MySQL) and non-relational (MongoDB) databases.

### Business Development Manager – Full-time – Remote – *Desconto Urbano*

- Optimization of the production application, focused on mobile performance: standardization, resizing and compression of partner images, reducing size by approximately 65%.
  - Onboarding and technical-operational support for 20+ partners, ensuring standardization and efficiency.
  - Automated documentation generation and direct administrative management of the production application.
- 

## RELEVANT PROJECTS

### [FinanceCore](#) | AI-assisted personal financial system

- Backend in Java + Spring Boot, following Clean Architecture and lightweight DDD.
- Offline-first financial management using SQLite, local encryption and decoupled domain.
- Use of AI for natural language data input, expense classification and validation.

### [Noctis](#) | Aplicativo mobile de produtividade e organização do tempo com IA

- Local-first Android app using React Native (Expo) + TypeScript + SQLite.
  - Combines Pomodoro, tasks, history and micro-journaling into a minimalist experience.
  - Modular architecture with focus on performance and UX.
- 

## RELEVANT ACADEMIC EDUCATION

Technologist Degree in Computer Systems — Fluminense Federal University (UFF)

---

## ADDITIONAL COURSES AND CERTIFICATIONS

Web Systems Development, Database Administrator (MySQL, MongoDB), Git and GitHub (Version Control), Natural Language Processing with Python (USP), TypeScript, Design Patterns with Java and others, REST and RESTful APIs (Hackatruck MakerSpace), RESTful API Design, SOLID Principles, JWT Authentication.

---

## TECHNICAL SKILLS

React, TypeScript, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Figma, Node.js, Java 21, Next.JS, Microservices, Spring Boot, Django, REST APIs, MySQL, PostgreSQL, MongoDB, SQLite, Clean Architecture, Lightweight DDD, Design Patterns, Modularization, Git, GitHub, Docker, Swagger/OpenAPI.

---

## LANGUAGES

Portuguese fluent, English intermediate (B1).
